PROJECTS

Autism Spectrum Disorder using ML PSGR Krishnammal College for Women, Coimbatore Developed and implemented machine learning models to predict autism spectrum disorder in children aged 1-5 years by analyzing a decade of historical data.
Air Quality Prediction Using Regression Models - Data Mining Project Rajagiri College of Social Sciences (Autonomous), Kalamassery Built high-accuracy Linear Regression and Decision Tree models for Air Quality Index forecasting using 5 years of pollution data. Achieved $R^2=0.911$ through expert data preprocessing (Min-Max Scaling) and feature selection, supporting data-driven environmental strategy.
Feedback Collection System - Full-Stack Web Development Project Rajagiri College of Social Sciences (Autonomous), Kalamassery Engineered a full-stack web application for user feedback collection. Implemented database integration using MySQL to securely store submissions and developed a dedicated Admin View interface for managing and visualizing collected data.
